# Aman Jamwal

Data Scientist | M.Tech CSE Student | Python, ML & AI | Seeking Full-Time Opportunities

India

## Summary

I'm a passionate data scientist with hands-on experience in machine learning, data analysis, and predictive modeling. Currently pursuing M.Tech in Computer Science Engineering from Himachal Pradesh University (HPU), where I'm developing a strong foundation in algorithms, data structures, and advanced AI technologies.

### EXPERIENCE:

- Data Science Trainee at HopingMinds - Completed an intensive 6-month program mastering Python, ML algorithms, and data visualization. Built end-to-end ML pipelines and deployed predictive models.
- Data Science Intern at Exposys Data Labs - Developed a salary prediction model with comprehensive EDA, feature engineering, and model comparison across multiple regression algorithms.

### CORE COMPETENCIES:

- Machine Learning & AI: Supervised/Unsupervised Learning, Neural Networks, Model Optimization
- Programming: Python, SQL, Git
- ML Frameworks: TensorFlow, Scikit-learn, Keras, PyTorch
- Data Tools: Pandas, NumPy, Matplotlib, Seaborn, Power BI
- Techniques: EDA, Feature Engineering, Model Evaluation, Hyperparameter Tuning

### WHAT DRIVES ME:

I'm driven by the challenge of turning complex data into actionable insights. Whether it's predicting outcomes, identifying patterns, or building intelligent systems, I love solving real-world problems through data science.

### OPEN TO OPPORTUNITIES:

Actively seeking full-time Data Scientist / ML Engineer roles where I can apply my technical skills and contribute to impactful projects.

Let's connect if you're looking for someone passionate about leveraging AI and data to drive business value!

---

## Experience

### HopingMinds

Data Science Trainee – Hoping Minds (Jan 2025 – Jun 2025)

January 2025 - June 2025 (6 months)

Chandigarh, India

Completed a 6-month intensive program in Python, ML, and data visualization.

Built ML pipelines, performed data preprocessing and feature engineering.

### Exposys Data Labs

Data Science Intern – Exposys Data Labs (Apr 2025 – May 2025)

April 2025 - May 2025 (2 months)

Built a salary prediction model. Conducted EDA, preprocessing, and compared regression models. Created data visualizations and reports.

---

## Education

### Himachal Pradesh University (HPU)

Master of Technology - MTech, C.S.E · (August 2025)

### CAREER POINT UNIVERSITY, HAMIRPUR

B.tech, Computer Science Engineering

### CAREER POINT UNIVERSITY, HAMIRPUR

B.tech, Coding · (August 2021 - August 2025)
